

## **Safety Information for Rainbow Socks® Products**

1. Socks by Rainbow Socks® are intended for personal use or as ready-to-give gifts. There is no gender discrimination regarding the products.
2. Some gift socks may contain small elements (e.g. Sushi, Football Socks Box), that is why they should be kept away from children under 3 years old, or should be opened under adult supervision.
3. The exact composition of the products is provided in the product description on the listing.
4. Socks by Rainbow Socks® are safe for the skin and made with certified materials (OEKO-TEX), ensuring they do not contain harmful substances.
5. Due to the properties of combed cotton, it may shrink under high temperatures. Therefore, it is recommended to wash the socks at no higher than 30°C. If the size changes after washing, stretch the socks by hand before wearing them. They should return to their normal shape.
6. To maintain their colour, socks should be washed inside out with similar colours.
7. Packaging, depending on the product, is made from cardboard, plastic, or metal, and often forms an integral part of the product. After unpacking, remember to dispose of unnecessary elements in an environmentally responsible way (waste sorting).
8. Products that require assembly or include a game (e.g. Sudoku) come with instructions inside or directly on the packaging.
9. For products with labels, the label should be cut off with scissors. Attempting to tear it may cause mechanical damage and tearing of the sock around the stitched label.
10. Non-slip socks are designed to provide better grip on the floor and can be used during training or worn around the house without shoes. However, special caution should be taken when using them on smooth surfaces. Producent is not responsible for improper or careless use of the product.
11. Non-binding socks are free from the standard elastic band, making them ideal for people with swollen feet or diabetic issues. However, individuals particularly sensitive to pressure should monitor their feet and immediately stop using the product if unwanted

swelling occurs.

12. In most cases, our socks have a standard elastic band. If excessive pressure or swelling occurs, stop using the product.
13. Socks without a non-slip layer should not be worn on smooth surfaces without footwear.
14. Socks from the Food category often closely resemble real food. However, they are not meant for consumption, and under no circumstances should they be put in the mouth. This also applies to products resembling popular drinks.
15. Beer Socks in a Can or other similar products are meant to surprise and entertain, not to promote alcohol consumption. Due to the sensitive topic, we encourage this product to be targeted only at adults. For minors, we recommend selecting products related to non-alcoholic drinks.
16. "Stand with Ukraine" socks do not aim to impose political views, but rather to show support for those affected by the war in Ukraine.
17. Socks belong to the group of flammable products and should be kept away from fire.
